

## How to register a Topocad 15 single license

The license managing for Topocad has been restructured and Topocad 15 is verified in a new License Browser.

Your former Topocad versions are still registered in the old License Browser.

C:\Program Files (x86)\Common Files\Adtollo\License Manager\LicenseBrowser.exe

The new browsers are called Licensebrowser32 and Licensebrowser64, and the selection depends on which operating system you have. Licensebrowser32 is used on 32-bit Windows and Licensebrowser64 is used on 64-bit Windows.

**NOTE! After installing Topocad 15, do not start Topocad.** Please follow these instructions to register:

1. Open Windows Explorer.

Right-click on the required License Browser (see below) in Windows Explorer and select "Run as administrator".

Run Licensebrowser32 if you have a 32-bit Windows:

C:\Program Files (x86)\Common Files\Adtollo\License Manager\LicenseBrowser32.exe

Run Licensebrowser64 if you have a 64-bit Windows :

C:\Program Files\Common Files\Adtollo\License Manager\LicenseBrowser64.exe

2. Press the *Add* button in the License Browser and select *Topocad* and *Version 15*. A yellow key will appear with a 0 license number under *Applications*.

3. Highlight the license number with the yellow key and enter your license number at the top of the right column.

4. Press the *Register* button, select *Register online* and enter your registration key when requested.

The license is now registered!
